Latest News!!!

“A stable future with Springdale”

- Springdale Natural Products and business partners Eurofibre have formed a unique relationship to allow farmers to become more closely involved in the huge opportunity that hemp oil and fibre products presents to many global industries.
- An on farm hemp fibre processing unit has been developed; this unit processes hemp fibre that has thousands of uses across many different industries.
- Farmer groups can become involved in this process and dramatically increase the on farm value of the crop.
- Make sure you are ready to capitalise on this new long term opportunity.
- Take the uncertainty out of farming and grow with Springdale.
